The Study of Christian Mysticism and Spiritual Alchemy – Syllabus #4: Priest Training

This final stage of training will review all of the information that was previously taught during the past two-year 90-Class Lectures (Syllabuses #1-#3).

During this last stage of training, the students will be instructed via the final textbook of this spiritual transformation course, titled – *“The Hidden Teaching of Christian Mysticism (Vol. #3): The Student’s Workbook & Teacher’s Training Guide.”*

This special 725-page workbook covers the entire two-year 90-Class Lectures from an instructor’s perspective – and additionally provides each student with deeper spiritual insight into the course materials that were previously covered.

During this time, the students will be assigned specific topics of presentation, focusing on spiritual transformation, advanced ascension training – different types of healing modalities, interacting with deities – protecting someone from psychic attacks - removing malevolent entities – etc.

The students will also periodically meet with Dr. Johnson and his Teacher’s Aids in person for additional instruction - and will still continue to congregate in Zoom class format for further in-depth training on how to embody and teach the previous course materials.

Once this final training has concluded, the students who still remain and can intelligently demonstrate a solid comprehension of all of the covered materials - will then be certified as “Priests of Esoteric Christian Mysticism and Spiritual Alchemy” – awarded from Professor Jerry Alan Johnson and the Temple of Change and Transformation...
